PROFESSIONAL SUMMARY

AI-native Product Manager with 6 years of experience in Agile product development, product design, and cross-functional execution. Builds GenAI into both the product and the process, from AI-powered features in NetSuite-based SaaS products to AI-assisted backlog refinement, QA, and release automation that help teams ship faster with less manual work. Experienced turning enterprise data and tools like Amazon Bedrock into customer-facing solutions, and thrives where technology and user needs evolve quickly.

PROFESSIONAL SKILLS Roadmap Development | Backlog Management | Requirements Gathering | Stakeholder Alignment | Cross-Functional Team Management | Product Design | Agile Methodologies | Mentorship | GenAI

TECHNICAL SKILLS Azure DevOps | Jira | Confluence | Zapier | Scrum | Figma | Generative AI | Amazon Bedrock | QA & Release Management | Usability Testing

CERTIFICATIONS

A-CSPO: Advanced Certified Scrum Product Owner, Scrum Alliance | 2023 **CSPO: Certified Scrum Product Owner,** Scrum Alliance | 2022 **Foundations of User Experience (UX) Design,** Coursera | 2023

PROFESSIONAL EXPERIENCE

PRODUCT OWNER, Aura Innovative Technology | Remote, USA June 2023 - Present

Aura Innovative Technologies builds MemberPlex, a member portal platform for not-for-profits. This role owns the MemberPlex product end to end.

- Own the MemberPlex product roadmap, backlog, and development priorities, gathering and refining requirements from clients, Project Managers, and leadership.
- Write user stories, acceptance criteria, and bug tickets that translate business and client needs into clear, prioritized development work.
- Lead UX/UI design in Figma, delivering 40+ mockups, workflows, and feature designs, including a GenAI-powered campaign module that lets users generate donation campaigns with AI-assisted names, logos, descriptions, and images.
- Own QA, release validation, and sign-off; coordinate deployments with pre- and post-deployment testing across client staging and production environments, and built a release notes process that reduced deployment inquiries.
- Serve as primary liaison between leadership and a global team of seven developers, leading roadmapping sessions and Scrum to align priorities, resolve blockers, and ensure successful delivery.
- Mentor and manage summer interns, owning day-to-day assignments, delegation, and prioritization; a 2024 intern achieved 100% task completion and a 30% improvement in documentation clarity.

AI & Process Improvement Initiatives

- Drive company-wide AI adoption, introducing AI-assisted backlog reviews that surface requirement gaps and sharpen prioritization, and AI-driven QA workflows that cut repetitive manual testing and shorten QA turnaround.
- Built tools and automations for standups, developer workload visibility, and progress tracking, and automated parts of release management for more consistent deployments and clearer production-readiness communication.
- Leading an Amazon Bedrock initiative using GenAI to automate feedback summarization and RFP response generation with AWS-hosted models.

ASSOCIATE PRODUCT MANAGER, Corevist | Remote, USA January 2022 - June 2023

- Orchestrated Scrum ceremonies for an 11-person engineering team, streamlining workflows and enhancing efficiency.
- Led the implementation of BuyBot, an automated purchase order system, reducing CSR workload by 50%.
- Revamped the Retrospective process, boosting team engagement and improving feedback quality.
- Collaborated with UX consultants to validate mockups, ensuring customer-focused solutions.

ENABLEMENT & OUTREACH LEAD, Red Hat | Raleigh, NC December 2020 - December 2021

- Led agile sprints and scrum ceremonies, ensuring smooth collaboration and feedback integration.
- Worked with marketing and sales to demonstrate product capabilities and address inquiries.
- Conducted market research, launching a CRM integration that boosted user engagement by 25% via Adobe Analytics.

DATA ANALYST INTERN, Red Hat | Raleigh, NC May 2020 - December 2020

- Managed the product backlog with the Product Owner, writing and prioritizing tickets to streamline workflows and alignment.

EDUCATION

B.S. in Business Administration with a Finance Concentration, North Carolina State University, *Raleigh, NC*
